Welcome

**The 10th AUN/SEED-Net Regional Conference on Energy Engineering
Theme: Energy Sufficiency and Efficiency through Regional Collaboration**

For the 10th time the AUN/SEED-Net is co-organizing a regional conference on energy engineering. The conference is a platform to share the latest research trends and experiences in regional economic issues of energy engineering as well as to explore research work of AUN/SEED-Net members. The field stretches from energy efficiency, energy systems, facility management, grid engineering, environmental compliance to alternative energy technologies and strategies.

The conference also gives the opportunity to discuss future collaborations and activities among academics, industry, community and policy makers. This year's conference will take place in Yangon, Myanmar and is jointly organized by Yangon Technological University (YTU) and University of Yangon (UY). Apart from regular Regional Conference on Nov 9th-10th at YTU campus, special session on PV system will be held on Nov 10th at UT campus.

Conference papers will be published in the Conference Proceedings with ISBN number.
