About PTC-WEN

The PTC-WEN is a networking group of women engineers under the Philippine Technological Council (PTC). This was organized as a commitment in the ASEAN Federation of Engineering Organizations (AFEO), aimed to:

1. To encourage women engineers to remain in the engineering practice.
2. To promote greater contribution from women engineers in industry.
3. To support women in their engineering careers and encourage achievements as engineers and leaders.
4. To recognize the achievements of women engineers.
5. To promote understanding, goodwill and cooperation among women engineers.
6. To promote and exchange ideas, concerns and experiences about engineering and technology.
7. To encourage the study and application of engineering among female students.
8. To become role models in inspiring the next generation of engineers
9. To connect students and professional engineers
10. To develop mentoring program, and
11. To organize engineering related activities which contribute to society and benefits the general public.
