Country Report

Young Member of EIT (YMEIT)

33rd Conference of ASEAN Federation of Engineering Organisations, Penang, Malaysia

Roles of Young Engineers

Big typhoon and earthquakes occurred in ASEAN countries

Young Engineering Volunteers

Engineering contribution to our societies are needed to reinforce relationship between people and the young!

YMEIT's Mission

“Young engineers for a sustainable global society”

“From our past experiences, we believe that the key success in dealing with our sustainable global society strongly relies on **cooperation between young and veteran engineers**, specialists and government sectors. With all the supports, our commitment to engineering will instill a strong sense of pride, honor and integrity.”

Country Report

Activities throughout 2014:

1. 1st Step to become an engineer
2. International Symposium, YRGS2014
3. Eco Challenge 2014
4. International collaboration :
 - JSCE100th anniversary
 - AFEO Mid Term Governing Board meeting
5. Engineering magazine and publishing news in social media for YMEIT
6. Future Activities

1) 1st Step to Become an Engineer

- To educate and prepare undergraduates in universities all over Thailand to become a full-fledged engineer

2) International Symposium

- The 6th Asia and Pacific Young Researchers and Graduates Symposium, 31st July-1st August
 - Many young engineers from over Asia Pacific attended and submitted research papers
